Fifty Million Invested in American Industrial Enterprises by English Syndicates.

Elevators, Breweries and Flouring Mills in All Sections Taken by the Foreigners.

Not a Trust, but the Purchases Made in Order to Secure Good-Paying Properties.

CETCAGO, Sept. 28.-The expenditure of \$50,000,000 by two English syndicates for the control of an extraordinary aggregate of industrial enterprises in the United states was completed in this city to-day. The syndicates include in their membership a great number of British bankers and trustees of large estates in the United Kingdom. No business was acquired for them in the United States which has not paid at least 12% per cent. a year for the past five years. Grain elevators, flouring mills and breweries have been the favorite investment. The management of each of the various enterprises will be placed in American boards of directors, subject to the control of a board in London. A representative of the syndicate here, when asked

sentative of the syrdicate here, when asked to-day if this doesn't look like the establishment of a huge British trust, said no. Each enterprise is operated separately. The plan is not one of aggression, but of conservative, sure investments. Hostile legislation, it is learned, has been cleverly evaded in a careful manner.

The deal embraces a chain of elevators from the Minnesots and Dakota wheat district to Chicago. The syndicate's flouring mills are at Minneapolis and the breweries in Chicago and the east. The purchasing committee, it is understood, left Chicago this evening en route to the northwest, and intending to go from there to Omaha and Kansas City, where further purchases are now being considered. Among the properties turned over to the the northwest, and intending to go from there to Omaha and Kansas City, where further purchases are now being considered. Among the properties turned over to the syndicate are a number of breweries in Chicago, Albany, Detroit, Newark, Jersey City, New York, Baltimore, Rochester and Syracuse. Also the Star elevators of Minneapolis, seventy-six in number; the Van Deusen system of elevators of Rochester, Minn., ninety in number; Cargill Bros', elevator system, of Minnesota and Dakota; Bradsted's Hancock iron mines, at Hancock, Mich. The arrangements for the purchase of the Pilisbury flour mills and the Washburn mills of Minneapolis have been completed and the transfer take placein a few days. The negotiations for two extensive elevator systems in Chicago are well advanced. The City Contract Co., of London, capital \$50,000,000, and the Trus was and Executors Co., of London, capital \$50,000,000, and the Trus was and Executors Co., of London, capital \$50,000,000, and the Trus was and Executors Co., of London, capital \$60,000,000, and the Trus was and Executors Co., of London, capital \$60,000,000, are the syndicates making these parchases. JEFFERSON COUNTY CANDIDATES

the Offices to Which They Aspire, BOULDER, Sept. 29 - [Special to the Independent.]-The democrats of Jefferson county in nominating Dodley Halford for re-election to the office of sheriff named a

man who during his term of office since December, 1888, has made a record which cannot be surpassed. At all times during the past year the sheriff of Jefferson county was at his post ready and willing to serve the people. He is a man thoroughly competent to fill the position and he should be re-elected by a large majority.

re-elected by a large majority.

The candidate for clerk and recorder, Alex S. Vest, has made many friends since he came to Jefferson county. He is well ad pted to the duties of the office for which he is a candidate. Mr. Vest will undoubtedly be elected and take charge of the office of clerk and recorder with the others of the democratic candidates.

Chas. Z. Pond, of Jefferson city, our candidate for clerk of the district court, has all the requirements necessary to fill that position in the manner in which it should be. He is an excellent penman and has a voice that may and will be heard in all parts of our spacious court room. In voting for Mr. Pond the electors of Jefferson county are electing a man who is thoroughing for Mr. Pond the electors of Jefferson county are electing a man who is thoroughly competent in every respect.

Alex Gilman, of Elkhorn, the candidate for assessor, is a man who well understands the duties of that office. He has been a resident of the county for some years and knows every nook and corner in it. He will, if elected, perform his responsible duty without fear or favor and with satisfaction to all tax payers.

Reduced Votes Expected in Both Yellowstone and Custer Counties at Tuesday's Election.

Democratic Cowboys Disfranchised, While Kidgloved Republicans do the Registering and Voting.

Toole and Maginuis all Right, With Democratic Gains all Along the

BILLINGS, Sept. 28 .- [Special to the Independent]-To forecast the political prospects of Yellowstone county is like every other county in the territory, a task by no means easy. Yet with all fairness the democratic party has every reason to expect gains in this county. At the last election Carter's majority was 196, while it is generally conceded this year that the republican majority, if any, will be less than 100. The republican party in this county is composed of men who have more interests of their party, while the democratic party is made up of the laboring class, who must needs devote their time to their daily labor, thus making the democratic party heavily handicapped. It is safe to say that there will be no democratic vote for the republican candidates on the state ticket and with the excellent material for county officers there is no reason to believe that any scratching of that portion of the ticket will be done. The republicans, however, are somewhat divided on the county ticket, as the nominations not all made on the merits of the various candidates for nomination, but by the

machination of the party leaders. The democratic party receives a severe blow at the hands of the republican officials, who have had charge of the registration, as well as the county officers, to whom the registration agents and judges of election have been compelled to look for information as to the legal points of the registration law, the instructions given having never failed in working to the disadvantage of the democrats when possible, without being too apparent. On the whole the outlook for the democratic ticket is far better than at any time since the division of this county from Custer county. Every indication in this county seem to point to a surprise to the republicans who, though working night and day, wear the confident look of victory. Every means available is being used to advance the interests of the democratic cause, both by loyal democrats as well as candidates for office, who never lose an opportunity to work for the good of the party in general, while making an individual canvass and with the gratifying

The Outlook in Custer. MILES CITY, Sept. 28 .. - | Special to the Independent]. - The names certified to the county clerk from the different registry offices now amount to 1,273. The full vote in this county is not expected, as there are so many who could not register. It is all important to those parties to see that all the votes registered are polled. It is conceded by individuals of both parties that Toole will carry the county. Between Maginnis and Carter the race will be close, but the democrats, with good reason, claim the former will receive a light majority. The fate of the remainder of the state ticket is doubtful. It will have something of a republican complexion, due to the fact Leotine won, Burch second, Harry Ginn | that the republicans were more fortunate in the matter of registration. Geo. R. Milburn, for district judge, will be given a handsome majority over the republican nominee, W. B. Burleigh. To the legislature will be sent a democratic senator, at least one representative and a good prospect of sending two to the lower

The democratic county ticket in the major part will go through. The fight for sheriff, treasurer and clerk will be close and bitter. These three county offices have caused a split in each party. The treasurer will probably fall to the republicans, as the expenditure of money and work will undoubtedly have its effect, work will undoubledly have its effect, though even bets in large amounts are made in sporting circles on the candidates for these positions. Custer county has suffered a loss in its voting strength by the impossibility of registering numbers of cowboys. This will have its effect on the democratic vote which is thereby lessented democratic vote, which is thereby lessened, but the county can be counted largely dem-ocratic for the officers to be elected next

Said Sanders Was a Candidate BOZEMAN, Sept. 28 .- [Special to the Independent.]-The "war horse" who was side-tracked to a small settlement in this valley delivered a very mild speech there. He flattered the "plain" people and said that it did him good to talk to them instead of the crowds of the city. One of the speakers had alluded to Sanders as a candidate for the Senate. Sanders did not seem to like this allusion, and he denied it in toto. The first speaker's truthful allusion and the second truthful allusion and the second truthful allusion are recommended. sion seemed to cast a cloud on the meeting, and the twenty men in the audience went home determined to vote against the republican legislative ticket if it was but an en-dorsement of Sanders's candidacy.

TOOLE AND MAGINNIS SPEAK.

A Great Outpouring of the Democracy at Anaconda.

BUTTE, Sept. 28 .- [Special to the Independent | .- A large number of democrats went down to Anaconda to night to attend the rally, the Emmet Guard band being among the number. At Anaconda they were met by a large number of citizens and escorted to the hotel. In front of the Mon- Corporate Influence and Ring Rule tana a large stand had been erected for the speakers. At 7 o'clock an immense pro cession, 1,200 strong, with torches, was formed, and accompanied by two bands and a drum corps marched through the streets. Rockets and Roman candles innumerable added to the brilliancy of the scene. The turnout was a magnificent

countermarched in front of the hotel and formed a solid phalanx. Hon. John Dougherty was chairman, and after a musical selection had been rendered by the Emmet Guard band he introduced J. K. Toole. The audience, besides being very large, was very enthusiastic, and received Mr. Toole with immense enthusiasm. He talked for a little more than an hour on the principal points of the canvass, arraigning the republican party for its record on the silver question. He was followed by Hon. Martin Maginnis in his usual taking manner, and the hold he has on an audience received a striking illustration. In the middle of his speech a fire started at the depot, two blocks from the hotel, and the audience ran to help to put it out. The speaking was abandoned, but after the fire had been extinguished, which took about five minutes, the entire audience returned and clamored for Maginnis, and he was forced to resume. He dealt with the early record of the republicans in Montana and the tariff, telling the people they need not be alarmed about the fuss the republicans were kicking up about the Mills' bill. That measure would never be brought up again. Mr. Maginnis was frequently interrupted by applause and the audience cheered him wildly when he finished. The meeting was a most successful one and showed the overwhelming majority of democrats in Anaconda.

The Attempt of the Republicans to Buy Missoula County Will End in Failure.

to be Throttled Forever at the Polls Next Tuesday.

Honest Men of Both Parties Enthusiastie in Support of the Democratic Nominees.

MISSOULA, Sept. 28 .- [Special to the Independent j-Affairs have reached that stage in this section of Montana when uninfluenced by corporations or the money of corruptionists, should be informed of the work the republican campaign mansgers are doing in Missoula county. Money is being lavishly poured out to corrupt this the at one time banner county of the democracy, while all the power of a grasping corporation is being used to force men to s pport the nominees of a county convention which it packed, and then compelled nominate the men it named. That ney can buy or threats intimidate a majority of the voters in this county is scarcely probable, but that this is what the relican managers and the corporation which owns that par'y in Missoula county is doing there is no doubt. Old time repub-licans, men who believe in honorable methods in politics as well as in business, object to a ticket being forced upon them, and will rebuke the machine in no uncertain manner. They have said nothing when federal appointments have gone by favor: when rank treachery has been rewarded by places on the state and county slates; but when the monopoly that is strangling every legitimate enterprise in Missoula county boldly enters a republican county convention and names the county ticket from state senator to coroner, the stalwart republican kicks and he kicks hard. The Hon. Harrison Spaulding, of the Missou-han, a widely read and influential journal, is a stumbling block in the path of the ma-chine ticket. Mr. Spaulding is a republi-can, but he cannot and will not endorse and support the creatures of this monop-oly, and right-minded men honor him for his course. The recognized machine or-gan is the Evening Item, which is either

nominee for clerk and recorder. It could have been picked up here again, as Mr. Bogart after losing a position or giving up a position with the Northern Pacific, and being fired from the cashier's desk of the Missoula National Bank, was picked up by Alvin Lent (at that time clerk and recorder), nominated and elected by him a year ago, and whose friendship he rewarded with the basest ingratitude. There is no reason why the democratic county ticket should not win from top to bottom. The democracy of Missoula, once the ban-ner county of the territory, will arise to a man, vote the ticket without a scratch and rescue the county from the octopus-like grasp of that malign influence which even now pervades and controls every branch of

now pervades and controls every branch of the county government. The republican central committee are putting up dollars where the democrats have not pennies.

The democrats are fully alive to the danger which threatens them, and their work in the past few weeks is being felt. Decent men of both parties realize the fact that if they allow the ring, which is striving for supreme power in Missoula county, to be victorious this year they will never again have any influence in public affairs, and with the cry, "a free ballot and pure elections," the best people of Missoula are rallying to the support of the democratic ticket and on this tide of popular indignation against republican methods, Toole, Maginnis and the rest of the state ticket, with the county ticket as well, will be carried to victory. ried to victory.

Pemberton at Townsend. TOWNSEND, Sept. 28 - [Special to the Independent.]-The democratic meeting last evening surpassed all former efforts of either party. At an early hour the people from the country began to arrive, and before 8 o'clock the town was full of good democrats and a few wavering republicans. A magnificent display of fireworks and the booming of cannon was the order of the early evening, and before 8 o'clock the hall was densely packed and many were com-pelled to stand upon the stairs. After a national ode by the Townsend Democratic Glee club, Hon. W. Y. Pemberton was introduced and gave us one of the most eloquent, logical and unanswerable demo-cratic speeches of the campaign. Party record and statistics were hurled at repubrecord and statistics were hurled at republicans without interruption, save that of cheers and applause. Without slang or abuse he charged the republican party with being the party of the Wall street gold bugs, the party of monopoly, the aristocratic party, with no sympathy for the working man and with use for him but at the ballot box. All this he proved to the satisfaction of the conservative republicans and all reasonconservative republicans and all reasonable, intelligent voters.
